

INDRAJITH VENUGOPAL

Lead Software Engineer — Full Stack | Node.js · React · TypeScript · AWS | AI-Assisted Development
+91 6380220551 • indrajithvgp@gmail.com • linkedin.com/in/indrajithvenugopal • Bengaluru, India

PROFESSIONAL SUMMARY

Full stack engineer with 8 years building highly available, distributed and scalable SaaS platforms across product-based organisations — from global higher-education software to enterprise drug-discovery systems at scale. Deep hands-on expertise in Node.js, React, TypeScript and AWS, owning architecture, CI/CD and delivery for microservices serving hundreds of users. Early adopter of AI-assisted software development — GitHub Copilot, prompt engineering, the Anthropic Claude API and MCP-based agentic AI workflows — applied to raise developer productivity, code quality and delivery velocity. AWS Certified Developer with a record of technical leadership, mentoring and raising engineering standards in fast-paced Agile teams.

EXPERIENCE

Senior Software Engineer — Informatics

Mar 2026 — Present

Eli Lilly and Company · Bengaluru, India · Hybrid

- Lead full stack architecture and DevOps for a distributed platform of 10 microservices on AWS serving 200+ global users, owning design decisions from the data layer through the React frontend.
- Drive adoption of AI-assisted development across the team — GitHub Copilot for build, test, refactor and debug, plus prototype MCP integrations (Jira/Atlassian) — improving delivery velocity and developer productivity.
- Improve reliability through automated testing (50+ cases, 40% regression reduction) and CI/CD pipelines across a containerised Kubernetes environment.

Software Engineer II — Informatics

May 2024 — Feb 2026

Eli Lilly and Company · Bengaluru, India · Hybrid

- Engineered a drug-discovery data platform end to end with React, Python, ClickHouse and Kubernetes on AWS, achieving sub-second query latency across 10 microservices for global R&D teams.
- Owned the full DevOps lifecycle — CI/CD, Docker, Kubernetes and AWS — and built the platform's first automated QA layer.
- Promoted to Senior Engineer within 22 months for full stack platform ownership and technical leadership across global teams.

Software Engineer II

May 2022 — May 2024

Ellucian · Bengaluru, India · Remote

- Built scalable SaaS features for global higher-education products using React, TypeScript and RESTful Node.js APIs on AWS.
- Built an AWS S3 file-upload module — awarded Best Product of the Year 2022 — and delivered WCAG-compliant, accessible React interfaces.
- Co-built a reusable React component library adopted across 5 projects by 5+ developers; served as Scrum Master for a 4-member team for 12 months, mentoring developers and raising delivery standards.

System Engineer

Jan 2019 — Apr 2022

Tata Consultancy Services · Bengaluru, India

- Built enterprise React and Node.js web applications across the full SDLC for client digital-transformation programmes, following Agile methodology.

KEY ACHIEVEMENTS

Best Product of Year 2022 — AWS S3 file-upload module recognised organisation-wide at Ellucian.

Promoted in 22 months — full stack and DevOps leadership of a 10-microservice platform serving 200+ global users.

40% Regression Reduction — established the first automated QA layer with 50+ test cases.

AI-Assisted Delivery — introduced Copilot- and MCP-driven workflows to accelerate build, test and refactor cycles.

TECHNICAL SKILLS

Frontend: React.js · TypeScript · JavaScript · Next.js · HTML/CSS · WCAG Accessibility

Backend: Node.js · Nest.js · Python · REST APIs · SQL · NoSQL · ClickHouse

Cloud & DevOps: AWS · Docker · Kubernetes · CI/CD · Git · Grafana · Automated Testing · Microservices

AI-Assisted Development: GitHub Copilot · AI Coding Assistants · Prompt Engineering · Anthropic Claude API · MCP Integrations · Agentic AI Workflows · AI-Assisted Testing · Responsible AI Practices

Practices: Distributed & Scalable Systems · Technical Leadership · Mentoring · Agile / Scrum

CERTIFICATIONS

AWS Certified Developer — Associate · Amazon Web Services (Feb 2024 — Feb 2027)

EDUCATION

B.Eng. Mechatronics Engineering · Chennai Institute of Technology (2014 — 2018)

Languages: English — Advanced / Professional Working Proficiency
